Course outcomes B.A. in Geography:

Paper	Course	Outcome
HC - 1016	Geomorphology	This course helps to know the unstable nature of the Earth and undergo constant changes due to dynamic process.
HC - 1026	Cartographic Techniques	To know different cartographic techniques for measurement and representation of various features of terrain.

201	Oceanography and Climatology	The paper helps to understand the oceans and seas and their shape, size, bottom relief, characteristics of sea water. Earth's atmosphere, factors of weather and climate.
202	World Regional Geography	This course helps to gather the knowledge about different regions.
203	Practical on Oceanography, Climatology and Regional Geography	This paper helps us to perform practical on Oceanography, Climatology and World Regional Geography.

DEPARTMENT OF GEOGRAPHY

DEOMORNOI DEGREE COLLEGE

P.O.: Deomornoi, Dist.: Darrang (Assam), PIN-784147

Established: 1995

Ref. No-

Date:

301	Soil and Biogeography	The outcome of this course deals with the geography of soil and flora and fauna.
302	Economic Geography	For better understanding of economic activities, resource and its conservation.
303	Practical on Biogeography, Economic Geography and field study	This paper helps us to perform practical on Biogeography, Economic Geography besides the learning to prepare field study report.

401	Forms and processes in Geomorphology	Helps to understand different geomorphic processes and gather knowledge about the physical hazards and its management.
402	Human Geography	To understand how man adjusts physical and cultural environment.
403	Practical on Geomorphology	This paper helps to perform various practical on geomorphic processes.

501	Concept of Regional Development planning and Geography of Development of USA and Japan	The paper deals the concept of regional planning and development, development pattern of USA Japan
502	Regional geography of India and SAARC Nations	Helps to understand regional geography of India and SAARC nations
503	Cartography and Quantitative Methods	Helps to gather knowledge about surveying and map projections
504	Population and Settlement geography	Helps to gather knowledge about the population parameter of the world
505	Practical on Cartographic Methods	Helps to perform various practical on surveying and map making
506	Practical on cartographic and quantitative methods	To give knowledge for using cartographic and quantitative techniques

DEPARTMENT OF GEOGRAPHY

DEOMORNOI DEGREE COLLEGE

P.O.: Deomornoi, Dist.: Darrang (Assam), PIN-784147

Established: 1995

Ref. No-

Date:

601	Environment and development	Deals with the concept and issues of environment, development, problem and sustainable management
602	Social and political geography	Deals with social and political behavior of nations
603	Regional geography of north east India with special focus on Assam	Helps to understand regional geography of north east India, it's problem and prospect
604	Principles and application of Remote sensing, GIS and GPS	Helps to understand the basic concept of remote sensing, GIS and GPS
605	Practical on advanced technique in geography	To handle advanced GIS and GPS techniques
606	Project work	To prepare a project work considering problem, objective, methodology, data collections, analysis and solution
